Applications

- Clearing brush and overgrown vegetation
- Maintaining trails and rights-of-way

BC Outback® Brush Cutter

Tough Enough

Designed and thoroughly tested to withstand an unexpected encounter with almost anything without breaking the blade or throwing a belt.

Ease of Operation

The drive and blade are controlled by independent levers - simply release the appropriate lever to stop the blade or the drive.

Adjustable Cupped Skid Shoes

These innovative skids allow for easier maneuverability from side-to-side and enhance tire traction over rough terrain. Also enable the cutting height to be adjusted.

Tight Quarters

Three forward speeds plus a reverse gear make cutting your way through tough terrain and vegetation much easier.

Tame Your Piece of the Outback

- **The Outback® Brush Cutter cuts it** - Perfect for clearing unwanted grass, weeds, brush and saplings
- **Rear discharge deck** - Cut debris rolls out slowly and safely after it is cut
- **Adjustable skid shoes** - Change the cut height from 2-3/4" to 3-3/4"
- **Sealed transaxle** - Three forward plus one reverse gear. No worry with chains or maintenance
- **Power to spare** - 13 HP Briggs & Stratton I/C or 13.0 HP Honda GXV manual or electric start
- **Puncture-proof tires** - Tractor lug tires are pre-filled with puncture sealant from the factory

Product Fact Sheet

Rear Cable Guard
Prevents cables from damage or accumulation of unwanted debris.

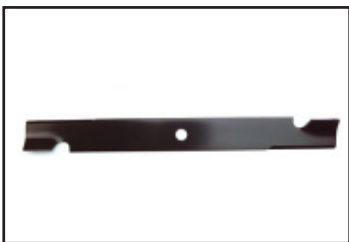

Ergonomic Handle Grips
Increase operator comfort and improve stability. Steel hand-guards provide protection against fences and in thorny brush.

Height Adjustment
Exclusive to the Outback® - operator can choose between 2-3/4" or 3-3/4".

Ease of Service
Front hatch for inspection and serviceability.

Lift Blade
(Optional) Part # 500102
Creates better cut quality in grass but requires more horsepower in brush and tall vegetation - can be effective in long, limp grass.

Spindle Assembly
Buttressed in four directions to withstand the unexpected.
